THE PHOSPHATE CITY

Phosphate Prices Firm and Rise Predicted Soon.

The L. & N. Take Out Even These Dual Times is \$50,000 Per Month.

Special to the Herald:

MT. PLEASANT, Sept. 12.—The phosphate market has been influenced largely by the scarcity of shipping incident to the withdrawal of merchant vessels for service in the Oriental and African troubles, and also, no doubt, by the usual unsettled condition of business, caused by the approaching presidential election. Prices remain pretty firm for domestic rock, ranging between \$2.75 and \$3.00, and a rise is confidently predicted before January 1st, 1901. There is very little rock ready for the market, except that owned by the Blue Grass, Columbian and Portland Bone Companies. Export rock is scarce, and should any company receive a large export order for immediate shipment, an extra force of hands would have to be employed. Shipments average sixty cars per day. This means a business of \$50,000 monthly to the L. & N. Ry.

Misses Susie and Daisy Barrett, of Huntsville, Ala., have been visiting Miss Alma Weaver for some weeks. The Columbian Phosphate Co. has resumed mining.

Miss Craik of Louisville, has been the guest of Misses Louise and Gertrude Craik recently.

The revival services at the Methodist church are being largely attended in spite of the warm weather.

Mr. Pleasant is looking forward to the coming of Rev. Sam P. Jones with much interest. He will lecture here on the 27th.

Both Hay Long College and Howard Institute are in full blast again, with prospects for a successful year.

Mr. C. S. Williamson, Jr., who has been with the Mt. Pleasant Laboratory during the summer, has returned to Nashville to resume his studies at Vanderbilt University.

Mr. Clarence Long leaves in a few days for Knoxville, to attend the University of Tennessee.

Mr. Frank Lord has been to Birmingham, Ala., on a visit.

Gen. Joseph Wheeler passed through enroute to Florence yesterday, and was welcomed by an enthusiastic crowd at the depot.

The Sovereign Show.

For many years, and until it sailed away to foreign shores, the Barnum and Bailey show monopolized the arena in New York City; was regarded as a home institution there, and its exhibitions in Madison Square Garden gave the children of Greater Gotham their only chance to "see the elephant" in the manner approved by morality. When it departed it left a very big and aching void, hard to fill, and hedged with local prejudice and partiality a stranger might well hesitate to encounter. Circus managers generally, though credited with being pretty nifty chaps, hesitated to rush in where only one had dared to tread, and it began to look as if the great city's arena glory had departed forever. Then the Adam Forepaugh and Sells Brothers aggregation came to the front, determined to show its make-up and metal, and to compel a final verdict by courting popular comparison with the only big show New York had ever seen. Its outside reputation, great as it was, cut no figure whatever. It had to make a new one as fully as if specially organized for the occasion, and to confront those in whose opinion the Barnum name stood for all that was worth seeing in the circus ring. Many shrewd showmen regarded it as both a dangerous and foolhardy experiment; on the contrary, it proved an unqualified triumph, and brought a new favorite to more than fill the vacant throne. That is the record as established by two successful seasons of phenomenal success, and unqualified praise from both the press and public, and the show that made it will be in Columbia on Wednesday, September 26, just as big, brilliant and bewitching as it was in Madison Square Garden.

MAYOR JONES' ESTIMATE.

Says 5,000 Were Killed in the Galveston Hurricane.

GALVESTON, TEX., Sept. 11.—Mayor Walter C. Jones estimates the number of dead at 5,000, and he is conservative. Over 2,000 bodies have already been taken out to sea or burned in trenches. Other hundreds are yet to be taken from the ruins. These bodies are now all badly decomposed and they are being buried in trenches where they are found. Others are being burned in the debris, where this can be done safely. There is little attempt at identification, and it is safe to say that there will never be a complete list of the dead, or of the living, for there are many missing, some of whom are dead and some alive.

Ghosts Shot for Looting

A soldier of Capt. Rafferty's battery, while patrolling the beach this morning, ordered a man to desist from looting. The fellow drew a weapon and was shot dead. The soldier was attacked by four other men, and he killed all of them. He had five cartridges in his rifle, and each of them found a victim. Other men have also been shot, but the details are not known nor can the exact number be ascertained, but it is probable that twenty-five were killed. Some of those were shot for failing to halt when ordered to do so. Others were shot for vandalism.

GEN. WHEELER IN COLUMBIA.

The War Veteran Spends a Few Minutes Here.

Gen. Joseph Wheeler, the old war hero, was in Columbia Tuesday morning. He was here only a few minutes, however, stopping just long enough to change cars from the 10:20 south-bound train to the N. F. & S accommodation, on his way to Florence, Ala. His coming was unannounced, or else there would have been some demonstration. He was attired in a citizen's suit of grey.

Gen. Wheeler has just retired from the United States Army, having reached the age limit. He will spend a short while at his home in North Alabama, and then he and his daughters will leave on a trip abroad.

FOR ALLEGED MURDER.

Stephen Kirk, a Young Man of Isom, Arrested.

Stephen Kirk, a young man of Isom, was arrested Tuesday charged with the murder of Brice Kittrell, deceased. He gave bond, and was tried before a magistrate at Isom Wednesday. The warrant was sworn out by Spence Kittrell, a son of the late Brice Kittrell.

Two months ago Kittrell and Kirk had a difficulty, during which the latter struck the former on the head with a wrench, causing a painful wound. Kittrell was said to have been drunk at the time, and public opinion took sides with Kirk. Kittrell, it was thought, recovered from his wound, and Kirk was not brought to trial. Just before Kittrell's death a few days ago, he is said to have been drinking exceedingly heavy, and some say this was the cause of his death. Kirk is a highly respected young man.

Duelling in Argentina.

A social scandal led to a double duel last week, Dr. Jaime F. Livallol and Mr. Julian Martinez being the combatants in one and their respective sons in the other, says William V. Burt, writing to the Chicago Record from Buenos Ayres. Happily, no blood was shed. One of the proposed amendments to the penal code is the suppression of the prohibition of duelling, and as the law can be easily evaded and the penalties for breaking it seldom enforced, unfortunately it matters little if such an amendment be passed.

COL. N. C. GULLETT.

A Former Maury Countian Among the Killed

At Galveston, Texas—Leaves a Brother and Other Relatives in this County.

A telegram was received yesterday by Mr. J. L. Dainwood of this city, stating that his uncle, Col. N. C. Gullett, was among the number killed during the terrific hurricane at Galveston, Texas, and asking that his brother, Mr. Sam Gullett, who lives in the Leftwich Bridge neighborhood, be notified.

Col. Gullett was a former resident of this county, but a number of years ago moved to Texas, where he amassed quite a fortune. Besides his brother Sam, he leaves surviving him a number of other relatives in this county, and also many friends. He was an uncle of Mrs. Bruce Pickens of this city.

He was visiting at this place about two weeks ago, and was on his way to his home at Victoria, Texas, when he met his death.

Press Comments on the Congressional Primary.

Franklin Review-Appeal: "The contest for the succession to Col. Cox will be remembered as one of the most stubborn in the annals of the Seventh District, which for nearly a quarter of a century has been the arena of stirring political struggles. From the race that ended last Saturday afternoon Mr. Padgett emerged victorious. The gentlemen whom he defeated made a gallant struggle, and were supported with conspicuous loyalty by strong friends in every county, but the verdict of the people was against them. Of course, Mr. Padgett will be elected; in this District a nomination is equivalent to an election. We believe that he will prove one of the strongest men that Tennessee has sent to Congress in many years. He is a really able man, well posted, well poised, ambitious and devoted to the public interest. He will make his mark in debate and will reflect credit upon his constituents wherever and whenever tested."

Williamson County News: "The returns from last Saturday's primary indicate a majority in the Congressional district for Hon. L. P. Padgett, of Maury county, a majority which, though comfortable enough, was secured outside of his home county of Maury, that county having expressed itself emphatically in favor of the gallant Whitthorne. * * * The people have not taken our view, have not worn our spectacles, and have seen proper to confer the honor and the trust upon another. We cheerfully submit, and will give Mr. Padgett our cordial support. We have recognized in him from the start a brainy and able man. There has been no stain upon his character, and we have made no attacks upon him that we must now explain or take back. He is now our candidate, and we will give him our hearty and loyal support, and do all we can to make his vote in this county unanimous. The ticket is now made up from top to bottom. Now let's lay aside all differences and every fellow put his shoulder to the wheel and roll up the biggest vote ever cast in this county."

Garwee's Sarsaparilla—for the blood—guaranteed to cure. A. B. RAINE.

Mr. Olney's Letter.

The greatest man in the Cleveland administration, the President not excepted, was Richard Olney. As Secretary of State he added a dignity to that office which it had not had since Webster's incumbency. It was his truly American pen that brought Great Britain up suddenly, when it was violating the Monroe doctrine in Venezuela. He is for Bryan and he is worth a million votes. Coming right on top of a similar declaration from Wm. L. Wilson, who next to Olney furnished the brains that made Cleveland famous, it greatly strengthens the chances of Mr. Bryan—Knoxville Sentinel.

Undoubtedly the severest blow that has been given to the Republican party in the present campaign is the pronouncement of Mr. Olney in favor of Democratic success. Elsewhere in to-day's Press appears the gist of the letter, in which McKinleyism is denounced and arraigned in nine distinct paragraphs epigrammatic in form, but scorching in substance. Certain it is that Mr. Olney's reversion to the Democracy will have a wide influence.—Indianapolis Press.
